

Increase in Water Charges (Iida City)

Starting when ?

Increase in water charges will take effect from the meter readings in February and March, 2024 (payments in March and April, 2024).

In Iida City, water meters are read once every two months and water charges are billed.

Payment period varies depending on the place of water usage.

How much will it cost ?

Water charges hike is approximately 18% and the basic charges for two months increases by ¥408.

Please take note of the table below for details.

Common households often use water pipes with a diameter of 13mm.

This time the sewer usage fee will not change.

● Comparison of Water Rates Before and After Rate Revision (Public / Business Use) ●

(Basic Fee)				(Usage Rate) (Per 1 m ³)			
Water Usage	Caliber	Previous Rates	Revised Rates	Caliber	Meter Classification	Previous Rates	Revised Rates
16m ³ or Less	13mm	¥2, 232	¥2, 640	13mm	Over 17m ³ Area Below 40	¥155	¥183
	20mm	¥2, 926	¥3, 454	20mm	m ³		
	25mm	¥4, 170	¥4, 928	25mm	Area Over 41m ³	¥170	¥200

What method can be used to find out the specific amount?

To calculate the specific amount of charges after the price adjustment, please visit Iida City website.

(The website is written in Japanese so please use a translation service.)

For reference, please take note of the written amount of water used on the water consumption notice (caliber slip) or the delivery notice for the water charges you have paid so far.

Why do water charges increase?

This is because it costs a big amount of money to renew old facilities.

Water charges hike is necessary to provide safe and drinkable tap water.
